pavansistemi

Un'azienda è il riflesso delle persone che la guidano e che la compongono.

Le loro esperienze sono il patrimonio su cui poggia il futuro dell'impresa.

Una soluzione in grado di soddisfare il cliente, presuppone una scelta personalizzata per ogni singola richiesta.

A company is a reflection of the people it is composed of and of those who run it. Their experiences are the wealth on which the future of the enterprise rests. It is assumed that a solution which satisfies the client means that there is a personalised choice for each individual request.

Idea: alla base di qualsiasi azione c'è un attimo che innesca il meccanismo, l'idea. Da un pensiero di pochi secondi nasce un progetto, quanto grande possa essere dipende solo da noi.

Idea: there is an instant before any action which triggers the mechanism, the idea. A project can develop from few seconds' thought, and how big it will become depends only on us.

.idea

idea.home

- La casa offre notevoli spunti per valorizzare il concetto Idea. A tutti gli spazi è possibile dedicare una soluzione personalizzata: scegli liberamente materiali, finiture e accessori.

- *The home offers wonderful opportunities for making the most of the Idea concept. Each space can be given a personalised solution: you have free rein in the choice of materials, finishing touches and accessories.*

	fianco side table 320x2000
	top top 690x320
	profilo corrente profile supports 600

- Organizzare gli spazi in modo facile e razionale è alla base del concetto costruttivo di Idea, un modo divertente per trasformare un angolo della casa.

- *Idea's design concept is based on organising spaces in an easy and rational manner, a fun way of transforming a corner of the house.*
